NOBLE Folding Saw

Multi-purpose folding saw complete with secure locking release button for cutting control and user safety.

- **Usage:** Recommended cut upto 3" (8cm) diameter.
- **Features:** 180mm (18cm) high carbon tool steel blade. ABS Resin comfort grip handle.
- **Spec:** 4mm (0.4cm) tooth pitch. 7 teeth per 30mm (3cm). Weight 215g. Impulse hardened and hard-chrome plated blade tips.
- **Length:** Overall length 397mm (39.7cm)
- **Code:** NF-180
- **Additional blade code only:** NF-180-1

Tip: carefully apply light machine oil/WD40 to the blade before and after use to reduce the build-up of sap and debris. Let the saw do the work, avoid twisting the blade and simply apply light pressure during use.

TROJAN Hand Saw

Engineered for the professional in 5 popular straight and curved blade lengths. Trojan handsaws feature high carbon tool steel blades, hard-chrome plated tips, secure saw-to-scabbard locking and rubber grip ABS resin handles.

DESCRIPTION	BLADE SIZE	BLADE TYPE	RECOMMENDED CUT UPTO	OVERALL LENGTH	CODE	ADDITIONAL BLADE CODE
Trojan 250 Handsaw	250mm (25cm)	Straight	6" (16cm)	412mm (41.2cm)	LX-250	LX-250-1
Trojan 300 Handsaw	300mm (30cm)	Curved	8" (20cm)	465mm (46.5cm)	XC-300	XC-300-1

STALLION Telescopic Polesaw

Ideal for high reach tree pruning. Available in 3 telescopic pole option lengths, complete with blade and scabbard. Stallion Polesaws feature high carbon tool steel blades complete with a serrated hard-chrome plated blade tip designed to leave a clean branch finish. Sickle blade for undercutting branch before main cut, this minimises bark tearing and splitting. Lightweight aluminium pole sets with extending telescopic points and locking clamps give added user control and secure extension fastening.

DESCRIPTION	BLADE SIZE	BLADE TYPE	RECOMMENDED CUT UPTO	OVERALL LENGTH (extending to)	CODE	ADDITIONAL BLADE CODE
Stallion 3.1 Telescopic Polesaw	400mm (40cm)	Curved	10" (26cm)	1.7-3.1m	CUAL-31	CU-47BS
Stallion 4.6 Telescopic Polesaw	400mm (40cm)	Curved	10" (26cm)	1.8-4.6m	CUAL-46	CU-47BS
Stallion 6.3 Telescopic Polesaw	400mm (40cm)	Curved	10" (26cm)	2.4-6.3m	CUAH-63	CU-47BS
Nokota 3.2 Saw & Lopper Pruner	300mm (30cm)	Curved	6" (16cm)	1.3-3.2m	SCS-32	SCS-32-1

Tip: carefully apply light machine oil/WD40 to the blade before and after use to reduce the build-up of sap and debris. Let the saw do the work, avoid twisting the blade and simply apply light pressure during use.

Did you know? Stallion blades fit AUS fibreglass rod pruning sets and most telescopic pole manufacturers. Contact info@CEuk-intl.com to check if your polesaw is compatible with a Stallion blade.

NOKOTA Saw & Lopper Pruner

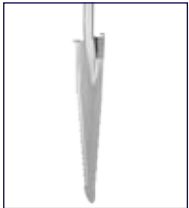

The complete saw & lopper pole pruner designed for use on the ground or during aerial tree branch removal. Probably the smallest and lightest polesaw on the market!

branches

ROOT ASSASSIN Shovel

The Root Assassin Shovel is designed for clearing overgrown areas of garden, landscape and forest. The all-purpose shovel & saw with serrated edges on both sides, has a unique ability to cut roots quickly and easily whilst digging. The engineered 'bone structure' steel shaft adds rigidity and strength without adding weight.

FEATURES

- 16 double edged sharp serrated teeth on each side
- Quality commercial grade carbon steel construction
- Durable comfort D grip rubber handle
- Ridged step for secure foot placement
- Sharpening: Teeth can be sharpened with a wheel, grinder or by a specialist.

DESCRIPTION	WEIGHT	OVERALL LENGTH	CODE
Original Root Assassin Shovel	4 lbs (1.8 kg)	48" (1.2m)	RA-01
Mini Root Assassin Shovel	2.2 lbs (1 kg)	32" (81cm)	RA-02

Why Root Assassin? Digging out roots can be such a pain, stubborn roots deep in the ground are often difficult to access. The 2-in-1 saw and shovel cuts fast and reduces strain on the body caused by using wrong tools.

Getting to the Root

of the Problem

Who We Are?

In 2009, 3 friends set out on an adventure. The first make or break mission took place at the APF exhibition. We were proud of our small plot kitted out with little more than a selection of pruning handsaws, a folding table and a gazebo! From our previous experience in the trade, we knew that there were few pruning handsaw options that performed, yet were available at a reasonable price. At the exhibit we were overwhelmed by the product interest and support we received from professionals in the arboricultural and forestry industries.
